CARIITTI OY

Cariitti Oy is a Finnish lighting company, situated in Kirkkonummi nearby Helsinki in Finland.

As a result of continuous product development Cariitti fibre optic and Led lighting systems, luminaires, projectors and fittings represent the absolute top level in the industry. Our operations are based on an innovative approach as well as on a strong commitment to fulfill customer requirements.

Cariitti is known for high quality products. We take pride in considering the environmental aspects of materials used in our production, and all components and materials suited for recycling are being recycled.

GERBERA 350 White
Code 1589060

GERBERA wall sconce is a half-round wall lamp, width 350 mm. The colour options are pearl white and dark graphite grey. The wall sconce includes an uplight and downlight element.

ILLUSIA

ILLUSIA

Code 1589020 Dark graphite grey

The inspiration for the Illusia ceiling light came from the desire to create an atmospheric table setting without any candles. The secret of the light is the glass ball, hidden inside the globe. Its patterned surface creates a floral reflection on the table. The glass balls are handcrafted by glass blowers at the Riihimäki glass works, to make each flower unique.

- 26 + 1 W / 1700 lm
- 230 V, not dimmable
- Shade made of powder painted aluminium
- Inner globe made of shock proof acryl
- Hanging tube, length 850 mm
- Adjustable suspension cord, maximum room height 4 m
- ø 500 mm x H 300 mm

The shade of the luminaire is made of powder painted aluminium and the colour options are dark graphite grey and white. The inner globe is made of shock proof acryl. The diameter of the luminaire is 500 mm and height 300 mm. The length of the hanging tube is 850 mm, with an adjustable suspension cord. The maximum room height is 4 m.

The luminaire is well suited to be hung above the table of a living or dining room. You can "set the table" with the reflected pattern of the light. The hanging switch is a beautiful detail with a double function. You can switch on the main light when the light illuminates the whole room, or you can only switch on the reflected pattern for the atmosphere, or both at the same time.

Design: Kirsti Taiviola

ILLUSIA

ILLUSIA

Code 1589021 White

KEINU

KEINU
Code 1527833

- 6 x 3.2 W
- Mains dimmable power supply included
- Length 800 mm
- Length of the hanging wires 2500 mm

The luminaire is ideal for various workplaces and reception desks. Thanks to its simple and plain design it is suitable for several interior solutions both at home and in public premises.

Design: Frida Lindström

KEINU

Keinu Reilu
Code 1527832

- 6 x 3.2 W
- Mains dimmable power supply included
- Length 800 mm
- Length of the hanging wires 2500 mm
- Lead free crystals

Design: Frida Lindström

EGGO

EGGO, white
Code 1589022

- 230V / 350 mA / 3 W
- Power supply IP20 included
- Size approx. L250 x W160 x H170 mm

EGGO is a table light, made of free-blown glass. The free-blowing technique gives each glass an individual size and shape and, therefore, the above sizes are approximate. The smaller glass stone works as the weight of the wire and also as the switch and dimmer of the light.

Design: Camilla Moberg

CUBE

CUBE • Code 1545036

- 230 V / 4 W
- 3000 K
- Recess 55 mm
- Installation to a mounting box or a 52 mm hole
- Supply voltage Led light, no transformer needed, Triac dimmable
- Stainless steel
- Size H165 x W94 x D45 mm

CUBE W

CUBE W • Code 1545037

- 230 V / 4 W
- 3000 K
- Recess 55 mm
- Installation to a mounting box or a 52 mm hole
- Supply voltage Led light, no transformer needed, Triac dimmable
- Stainless steel
- Size H94 x W165 x D45 mm

ARCTIC SKY

ARCTIC SKY white
Code 1589031

- IP44
- 230V / 3 W / 700 mA
- Power supply IP20 included
- Size 500 x 500 x 30 mm

ARCTIC SKY RGBW
Code 1589032

- IP44
- 230V / 5 W / 350 mA
- Power supply IP20 included, which allows the connection of max 5 panels
- Size 500 x 500 x 30 mm

ARCTIC SKY RGBW (without power supply)
Code 1589035

- IP44
- 5 W / 350 mA
- Size 500 x 500 x 30 mm

ARCTIC SKY is a modular light element with decorative lighting effect. The luminaire is made of Arctic Crystal crushed glass which creates crystal-like sparkling in the light. The integrated optic fibres inside the element illuminate the whole surface of the light. The light source is a white Led or a colour changing RGBW Led.

Design: Solulight

TOIVE

TOIVE Code 1527844
 TOIVE 1150 mm • Code 1527848
 TOIVE 1650 mm • Code 1527849

- 2 x 1 W
- 350 mA
- Stainless steel frame
- Lead-free crystal
- Power supply included
- Surface mounted acrylic panel 1150/1650 x 200 mm

Toive is a modern and decorative crystal light fitting. The light reflects through the crystals and creates beautiful and exciting figures on the wall. The colour of the downlight is warm white. Toive is available also with surface mounted acrylic panel. Toive is well suited for private and public premises, in lounges, hallways or e.g. in a bedroom above the bedside tables.

Design: Frida Lindström

KIHLA

KIHLA Led
Code 1545086

- 1 W
- 350 mA
- Stainless steel
- Lead-free crystal
- Dimension: H 175 x W 155 x D 94 mm
- 5 m cable included
- Power supply to be ordered separately, see p. 81

Ideal for atmospheric lighting in hallways, bedrooms and restaurants.

Design: Frida Lindström

ø 12 mm

KIHLA GOLD

KIHLA Led Gold
Code 1545090

- 1 W

DOWNLIGHTS

State-of-the-art Led technology is used in Cariitti products. They have high luminosity, low energy consumption, excellent resistance to vibration and ensured electrical safety, low surface temperature and a very long lifetime. Cariitti Led lights have a lifetime of 50 000 hours, with only a 30% reduction in luminous flux.

- Lead-free crystal
- Includes 18 crystal lights of which 12 pcs with 345 crystals, 6 pcs with 567 crystals, a power cord set and power supply. A ready-to-install set.

INDIRECT AND KITCHEN LIGHTING

By placing the Led lights in the constructions good results are obtained with low power. Colour changing RGB Led lighting permits variation in ambience and thereby creates an ever more comfortable atmosphere.

Led profiles offer a versatile lighting alternative and have the advantage of low energy consumption and ease of use.

Adjustment fittings, a pair

HUUHTO EASY lights are suitable for a diverse use. They are ideal for kitchen unit lighting and they can be used also for indirect lighting through ceiling surface.

Huuhto profile lights are well suited for many purposes. They can be used in the edge of a table to illuminate the front surface of drawers and cupboards. In these installations Huuhto provides an excellent light inside the drawers when opening them.

HUUHTO EASY

- Broad spread of light, suitable e.g. for illumination of kitchen units, shelves and ceiling and wall surfaces
- To be noted in installation planning that the connector of the supply cable will add the total length with 20-40 mm
- Easy to install with the enclosed clips
- Profile size: width 18 mm, height 16 mm
- The total length of connected profiles is max 7 m

Code 1532133
Supply cable 5 m,

Pirta Flat

CURTAIN PARTITIONS WITH INTEGRATED LED PROJECTOR

The fibre optic curtain partition is comprising preinstalled threadlite tails fitted to a metal recessed base and applied with crystal fittings to form a ready-to-install curtain package. Led projectors are integrated inside the luminaire.

The curtain partition can be installed on a ceiling or wall, to be specified upon order. Other lengths are available on order.

STARLIGHT SETS

Cariitti Starlight sets include a projector and fibres. Some projectors have twinkle effect which makes the starlight slowly twinkle. Starlight sets are also available with crystals which create an even more beautiful effect.

Installation of a starlight set is possible also in ready premises with help of installation panels. The panels are made of light, fire resistant PIR foam. The panel is installed on the ceiling with small hooks and wires.

25 / 4	25 / 5	25 / 5	25 / 4	118	CK 0,75 / C-Flex 3	VPL30CT-Crystal Star Gold	1527613	

Crystal Star sets include a plastic fibre harness with 100 pcs of thin (0,75mm) fibres and 18 pcs of thicker (3mm) fibres with Crystal fittings, 6 x CR-12, 6 x CR-16 and 6 x CR-31. The light sources of the projector are white Leds with twinkle effect (T) or blue Leds with bluetwinkle effect (CT).

VPL10 CRYSTAL STAR

Power	Fibre length 4.0 m	Total stars	Fibre	Type	Code	
1 W / 4000 K	75	75	CK 0,75 mm	VPL10K-75 Chrome	1527412	
1 W / 3000 K	75	75	CK 0,75 mm	VPL10L-75-Gold	1527413	

These sets include a plastic fibre harness , projector VPL10 and 7 Led crystals: 2 x CR-12, 3 x CR-16 and 2 x CR-31.

ADDITION TO VPL10K CRYSTAL STAR

Code 1527414

- Includes 75 fibres, each 4 m long.
- Power supply not included.
- Can be used with VPL10K Crystal Star only.

BATHROOM LIGHTING

In Cariitti bathroom creations, traditional lighting fixtures are replaced by Led illuminated soap cups, toilet paper holders and towel hooks.

GLASS BASIN Ø 380

Code 1545672
 Max. power 6 W, IP67
 A 5 m connecting cable included.
 Complete kit, a power supply IP20 included.

• Sizes Ø 380 and 420 mm

Recommended ambient temperature from -30°C to +40°C.

SC-100

SC-100
 Code 1545607

- 1 W, 350 mA
- Satin glass 19 mm
- Installation hole Ø 14 mm
- A 5 m connecting cable included
- Power supply to be ordered separately, see page 81
- IP44

Ø 110 mm

Recess 30 mm

TH-100

TH-100
 Code 1545608

- 1 W, 350 mA,
- Satin glass
- Installation hole Ø 14 mm
- A 5 m connecting cable included
- Power supply to be ordered separately, see page 81
- IP44

Recess 30 mm

165 mm

These Led lights are easy to install. Installing hole \varnothing 14 mm. Led 1 W / 350 mA, IP44. NB! Serial connection only. Power supply to be ordered separately, see page 81.

GP TOWEL HOOK

GP Towel hook
Code 1545665

- Recess 40 mm
- IP67

S-PAVER 3200 IP68

S-PAVER 3200 IP68
Code 1553034

- 1 W/350 mA
- Ideal for steam room lighting
- Equipped with a 5 m connection cable
- Power supply to be ordered separately, see page 81
- Available also in ready-made kits, see p. 63
- IP 68

NB! All S-Paver fittings are delivered with both clear and satin glass.

S-PAVER 3200 GOLD IP68

S-PAVER 3200 Gold IP68
Code 1545217

- 1 W/350 mA
- Ideal for steam room lighting
- Equipped with a 5 m connection cable
- Power supply to be ordered separately, see page 81
- IP 68

NB! All S-Paver fittings are delivered with both clear and satin glass.

These Led lights are easy to install, IP67. NB! Serial connection only. 3000 K.

GP-65 IP67

GP-65 IP67
Code 1545167 Stainless steel

- 1 W / 350 mA
- Directs light downwards and is ideal e.g. for terraces and steam rooms
- Equipped with a 5 m connection cable
- Power supply to be ordered separately, see page 81
- IP67

GP-65 KIT 6 IP67

GP-65 KIT 6 IP67
Code 1545193

The KIT includes 6 pcs of GP-65 Led lights with 5 m connection cables and a connection box with a power supply and serial connection module.

- 6 x 1 W/350 mA
- Directs light downwards and is ideal e.g. for terraces and steam rooms

NEO IP67

NEO GOLD IP67

SAUNA LIGHTING SETS

Cariitti sauna lighting systems are the most comprehensive and advanced solutions on the market for sauna illumination as well as fibre optic sets with various effects. We also have a wide range of standard sets - unlimited - use your imagination. In addition to standard sauna sets we produce individual

the market. Our product range includes standard sets for Sauna seat and ceiling
sauna fibre optic fittings. With Cariitti fibre optic illumination the possibilities are
al solutions and lengths to order.

Glass fibre Sauna Seat Sets enable you to create illumination even in existing saunas. In addition to standard seat sets, individual solutions can be designed by freely combining fibres, projectors and lighting fittings. All sauna lighting fittings can be installed to fibres with a crimpable ferrule (1538020, page 60) which comes with the fitting.

SEAT SETS

Size recom- mendation	Lengths S-Flex 2 (S-Flex 4)		Type	Lens	Code
1 - 4 m ²	4 x 1.4 m 4 x 1.7 m 2 x 2.0 m (1 x 4.0 m)		VPL30-G211		1516530
2 - 5 m ²	4 x 1.4 m 4 x 1.7 m 4 x 2.0 m 2 x 2.3 m 2 x 2.6 m (1 x 4.0 m)		VPL30-G217		1516531
3 - 6 m ²	4 x 1.4 m 4 x 1.7 m 4 x 2.0 m 4 x 2.3 m	2 x 2.6 m 2 x 2.9 m 2 x 3.2 m (1 x 4.0 m)	VPL30-G223		1516532
4 - 8 m ²	4 x 1.4 m 4 x 1.7 m 4 x 2.0 m 4 x 2.3 m 4 x 2.6 m	2 x 2.9 m 2 x 3.2 m 2 x 3.5 m 2 x 3.8 m (1 x 4.0 m)	VPL30-G229		1516533

SEAT SETS WITH COLOUR CHANGE

Size recom- mendation	Lengths S-Flex 2 (S-Flex 4)		Type	Lens	Code
1 - 4 m ²	4 x 1.4 m 4 x 1.7 m 2 x 2.0 m (1 x 4.0 m)		VPL30C-G211		1516610
2 - 5 m ²	4 x 1.4 m 4 x 1.7 m 4 x 2.0 m 2 x 2.3 m 2 x 2.6 m (1 x 4.0 m)		VPL30C-G217		1516611
3 - 6 m ²	4 x 1.4 m 4 x 1.7 m 4 x 2.0 m 4 x 2.3 m	2 x 2.6 m 2 x 2.9 m 2 x 3.2 m (1x 4.0 m)	VPL30C-G223		1516612
4 - 8 m ²	4 x 1.4 m 4 x 1.7 m 4 x 2.0 m 4 x 2.3 m 4 x 2.6 m	2 x 2.9 m 2 x 3.2 m 2 x 3.5 m 2 x 3.8 m (1x 4.0 m)	VPL30C-G229		1516613

Glass fibre Sauna Lighting Sets can be installed in the sauna benches or ceiling (temperature not exceeding 180°C). In addition to standard lighting sets, individual solutions can be designed by freely combining fibres, projectors and lighting fittings. Led projectors ensure a low energy consumption and a very long lifetime. They are completely silent and produce just a small amount of heat. A high Ra index >90 together with a warm 3000 K Led ensures an atmospheric sauna lighting.

CEILING SETS

Sauna size recommendation	Lengths	Locking rings	Lens	Ferrule	Active ø	Type Code

ARCTIC CLOUD

ARCTIC CLOUD
Code 1589038

Ceiling light panel, made of crushed glass, size 300 x 300 x 25 mm. Depending on the chosen projector you can create effects like fire flame, northern lights or colour change. With clear white light the panel looks like crushed ice.

1 x S-Flex 4 M8

ARCTIC SKY

ARCTIC SKY
Code 1589030

Crushed glass panel 500 x 500 x 30 mm, like a painting. To be illuminated with one 6 mm fibre, installed in the middle back side of the panel. Can be installed on a sauna wall. A dashing and therapeutic element that changes character according to the chosen light effect.

Depending on the chosen projector you can create effects like fire flame, northern lights or colour change. With clear white light the panel looks like crushed ice.

1 x S-Flex 6 M8

FANTASIA

FANTASIA
Code 1589017

Crushed glass panel 1000 x 500 x 35 mm is like a painting. Fantasia is illuminated with two 6 mm fibres and it can be installed in a sauna behind an electric heater. A dashing and therapeutic element that changes character according to the chosen light effect.

Depending on the chosen projector you can create effects like fire flame, northern lights or colour change. With clear white light Fantasia looks like crushed ice.

2 x S-Flex 6 M8

Fittings are easy to install. Colours gold, chrome and white. Installation surface min. 6 mm. At the end of a fibre, the light angle is approx. 40-60°. With a lens fitting, the light can be focused in a 25-35° angle depending on the lens.

LIGHTS FOR OUTDOOR AND UNDERWATER USE

With Cariitti outdoor lights you can create beautiful lighting in your garden. Cariitti products illuminate paths and plants and emphasize details better than any traditional lights . There are many options from ground lights to wall and eaves lights.

NB! Serial connection only. Luminaire equipped with a 5 m connection cable. Power supply to be ordered separately, see page 81. Also available a ready-to-install extension cable length 5 m (with IP67 connector), code 1532242.

PROJECTORS

Among our range of projectors you will easily find a model to suit your own lighting solutions and type of installation.

All our projectors are equipped with an Led light source. This ensures excellent light quality and long lifetime. The product range includes also RGBW projectors with colour change, as well as projectors with various effects.

The projector VPL30C BT is equipped with wireless Bluetooth control option. The application can be loaded from AppStore for iPhone and iPad, and from GooglePlay for Android. With the application you can control the colours and brightness of your projector, create individual colour change programs or choose a ready-made program.

OPTIC FIBRES

With optic fibres light can be taken everywhere. There is no electricity or heat in the fibres, there is only light. When producing a fibre bundle the projector end is hermetically sealed to keep the fibre clean and later prevent it from melting. The projector end is protected with a thermal protection filter. All fibre joints and endings in the fibre bundle are made without adhesives using the so-called dry polishing method which gives the best light conductivity performance on the market.

FIBRE HARNESS CALCULATOR

With the fibre harness calculator you can calculate or create your own fibre bundle. The price will be calculated only if you have a password. Passwords are available for our dealers.

C-FLEX 7	1530009	8,00

HOW TO USE THE PROGRAM

1. Specify your order with a number or mark
2. Choose CE/CER common end.
CE=ordinary CER= randomized
3. Choose the fibre size
4. Define the amount and lengths of the fibres, and choose the type of ferrules.
5. If Linear end fitting is chosen, define the length. If you chose another end fitting move directly to add.
6. Press the add handle and your selection becomes an order line.
7. Repeat item 3-6 until your chosen bundle is calculated.
8. Press the "print order form" handle and you will get a complete calculation in pdf format.
9. Save the pdf file on your own computer and send it as an attachment of an e-mail to us.

BARE PLASTIC SINGLE CORE FIBRES

PLASTIC SINGLE CORE FIBRES WITH BLACK OUTER TUBING

CK-FLEX 0.75

CK-FLEX 2

PLASTIC STRANDED FIBRES

- C-Flex plastic fibres are made of 0.75 mm strands, e.g. a 4 mm fibre consists of 25 single 0.75 mm strands.
- The light transmitting of plastic fibres is excellent, the light reduction is max 3%/m.
- The recommended ambient temperature is $-40 - +80^{\circ}\text{C}$.
- The recommended fibre length is max. 10 m.

C-FLEX 2

Code	0,75 strands/ fibre	Active \varnothing	Bend radius	Outside \varnothing	Ferrule	Max. tails/projector

LATERAL PLASTIC FIBRES AND INSTALLATION ACCESSORIES

Lateral fibres are used to illuminate and emphasize various forms and shapes. They are commonly used in steam baths, spas and pool edges.

SIDESPARKLE 100

Code 1530204

Max. tails/projector: 6

U-CHANNEL + COVER

Code 1555040

Ridig clear polycarbonate
U-channel and cover for lateral fibre Sidesparkle 100. Length 1.0 m, width 18 mm and height 16 mm.

CLIP FOR U-CHANNEL

Code 1555041

Metallic clip to fasten the U-Channel for Sidesparkle 100.

MIRROR END

Code 1548428

LATERAL FIBRES AND ACCESSORIES

- Lateral fibres are usually lit from both ends, with the maximum fibre length of 30 m. Lateral fibre can also make a loop when its both ends go into the same projector. If lit from one end the maximum length is 10 m with a mirror end cup.
- The recommended ambient temperature of lateral fibres is -40 - +80 °C.

LATERAL GLASS FIBRES

SIDELIGHT – GLASS FIBRE Ø 4.85 mm

- Sidelight glass fibre can be used to create e.g. decorative lighting and effects.
- Can be illuminated also by a projector with a colour effect.
- The recommended ambient temperature of Sidelight fibres is from – 40 °C to + 200 °C.
- Max 52 tails/projector.
- The recommended fibre length is max 3 m, lit from one end, or max 5 m, lit from both ends.
- The recommended projector VPL10.
- The minimum bend radius 15 mm.

GLASS FIBRES

- Glass fibres are produced from 0.05 mm glass strands. The fibre is flexible and easy to handle.
- The recommended ambient temperature of glass fibres is from - 50 °C to + 180 °C.
- Glass fibres do not wear out and they can be used both indoors and outdoors.
- The light transmitting is excellent, the light reduction is max. 5%/m.
- The recommended fibre length is max 10 m.

Cariitti fibre optic common end represents the latest development. The common end is designed for easy assembly and efficient cooling. It is equipped with an IR-UV filter that ensures a clean fibre end and a long fibre life.

To guarantee the greatest efficiency the thermal connection method makes sure that the fibres are sealed and no light leaks between fibres. In demanding lighting environments the compatibility of the lighting levels between different cables is ensured by randomising the fibre strands at the common end in a 1:25 ratio. Different sized fibre optic cables can be fitted into the same common end.

CE – STANDARD COMMON END

CER – RANDOMIZED COMMON END

COMMON END SIZES 100, 200, 300, 450 AND 650 STRANDS.

POWER SUPPLIES, CONNECTORS AND REMOTE CONTROLS

Power supplies are delivered in ready-to-install sets, which makes the installation quick and easy. The connection is made with quick-connect fittings.

With remote controls the functions can be switched on and off and, depending on the luminaire, they allow you to control the colour change or dimming or to move from one pre-programmed lighting feature into another.

LED DRIVER SETS 350 mA MAINS DIMMABLE

- Maximum output power 80 W
- Ambient temperature range Ta -20 ... +50°C
- Maximum temperature on Tc dot 80°C
- Cables input 2x0.5 – 2.5 mm²
- Cables output 2x0.5 mm²
- Dimensions L245 mm x W47 mm x H44 mm
- Weight 290 g

LL1xCV-DA

Code 1532289

The LL1xCV-DA DALI dimmable extension unit is designed to be used with constant voltage Led drivers, creating solutions for decorative lighting.

- DALI control input, 0.1 %-100 % dimming range
- 1 kHz PWM dimming frequency
- Stand-by power < 0.1 W
- Duplicate terminals for parallel connection
- Maximum output power 120 W
- Ambient temperature range Ta -20 ... +50°C
- Wire size 0.5 – 1.5 mm²
- Dimensions L184 mm x W40 mm x H26 mm
- Weight 70 g
- IP20

OL1X30-E-CV24

Code 1532293

Independent constant voltage Led driver

- Constant voltage output 24V
- Maximum output power 30 W
- Suitable for use with LL1xCV-DA driver extension for DALI dimmable solutions
- Ambient temperature range Ta -15 ... +45°C
- Wire size, load wires 0.75 mm²
- Wire size, mains wires 1.0 mm²
- Dimensions L131 mm x W42 mm x H34 mm
- Weight 340 g
- IP67

OL1X75-E-CV24

Code 1532292

Independent constant voltage Led driver

- Constant voltage output 24V
- Maximum output power 75 W
- Suitable for use with LL1xCV-DA driver extension for DALI dimmable solutions
- Ambient temperature range Ta -15 ... +45°C
- Wire size, load wires 0.75 mm²
- Wire size, mains wires 1.0 mm²
- Dimensions L155 mm x W50 mm x H32 mm
- Weight 454 g
- IP67

OT 9 DIM

OT 9 DIM
Code 1532032

Independent direct current power supply

- Dimming 1-10 V
- Dimming range 0...100 %
- Direct current output 350 mA
- Output power, load 1 - 9 W
- Maximum ambient temperature Ta 55°C
- Maximum temperature on Tc dot 70°C
- Cables input 2x0.5 - 2.5 mm²
- Cables output 2x0.5 - 2.5 mm²
- Dimensions L108 mm x W53 mm x H33 mm
- Weight 108 g

OT CONTROL MODULES AND REGULATORS

Code 1532025 Potentiometer 1 - 10 V
Code 1545715 DALI control
Code 1532221 Remote control
Code 1532222 Infrared unit
Code 1532223 Y-connector
Code 1545736 Push button switch
Code 1532224 PB Coupler
Code 1532016 OT DIM 120W/24V

1532025
1545715

1532222

1532221

1532223

1545736

RGB / OT EASY 32

Code 1532226 DRIVER

Built-in constant voltage power supply

- Output voltage 4 x 350 mA
- Maximum 5 x RGB Leds / power supply
- Power consumption 0-32 W
- Link up to 64 slave drivers per master driver
- Maximum ambient temperature Ta +50°C
- Maximum temperature on Tc dot 75°C
- Also remote controllable
- Dimensions L223 mm x W96 mm x H32 mm

CABLES AND CONNECTORS FOR SERIAL CONNECTION

- (1) Code 1532207 500 mm
- (1) Code 1532232 1500 mm
- (2) Code 1532208 5000 mm
- (3) Code 1532209 5000 mm
- (4) Code 1532210 5000 mm
- (5) Code 1532212 200 mm
- (6) Code 1532213

RELCO INFRARED SWITCH

Code 1532070
Infrared Sensor

- Voltage 220 - 240 V 50/60Hz
- Maximum load 500 W
- Working distance 3 m
- Diameter of the sensor 10 mm
- Delay 45 s. after the movement
- Ambient temperature range T_a -10 ... +35°C
- Maximum temperature on T_c dot 40°C
- Cables 0.75 - 2.5 mm²
- Dimensions L103 mm x W31 mm x H21 mm

RELCO INFRARED CABIN SWITCH

Code 1532076
Infrared Cabin switch

- Voltage 100 - 240 V 50/60Hz
- Maximum load 250 W
- Working distance maximum 10 cm
- Diameter of installation hole for the sensor 13 mm
- Switched off when covered
- Ambient temperature range T_a -10 ... +35°C
- Maximum temperature on T_c dot 40°C
- Cables 0.75 - 2.5 mm²
- Dimensions L77 mm x W35 mm x H18 mm
